

Operations & Maintenance Technician

Regenis, a division of Andgar Corporation, is seeking a full-time Operations and Maintenance Technician to be responsible for handling maintenance and daily operational duties at Renewable Energy Facilities. This position will be appointed to monitor and maintain the Port of Tillamook digester.

Essential Job Functions:

- Monitoring and recording instruments
- Data entry of site operating performance
- Maintaining a variety of pumps and motors
- Troubleshooting and repairing controls and instrumentation
- Oil and filter changes on large reciprocating engines
- Cleaning separator screens
- Maintain site cleanliness and appearance
- Communicate and document issues to supervisor regularly

Knowledge, Skills & Abilities:

- Mechanical ability, prior experience with electrical and rotating equipment preferred
- Ability to follow instructions with appropriate level of self-direction
- Ability to interact with customers, vendors and employees on a positive level
- Ability to work in all types of weather and dirty environments

Requirements:

- High School Diploma or GED
- Current Driver's License and acceptable driving record
- Must be able to physically lift or maneuver up to 100 lbs.
- Dairy farm background or experience a plus
- Bilingual in Spanish a plus
- Drug-free (we do random drug testing, including marijuana)

Regenis symbolizes the rebirth of our planet's reusable organic resources. If you would like to be a part of our mission to leave our land better for the next generation, apply today by sending your resume to Careers@andgar.com
